Moderation Day 24 October – Year 1 to 8 Teachers

Thank you all for attending our staff National Standards moderation day at Koru School on 24 October. All teachers teaching years 1 to 8 submitted writing samples that were moderated collaboratively across schools. Early into next year we hope to have examples of these samples collated into a draft moderation pack for schools. We hope the day with Dr Alison Davis was a worthwhile experience, especially her seminar on how to be a high quality teacher of writing. We look forward to working collaboratively together to increase student agency within the Kahui Ako.

The PLD outcomes now have a draft outline with the expert partner Alison Davis and the Vision team for 2018. The draft plan has been put in place for in COL across school teachers, within school teachers.

PaCT Tool

The across and within school leaders had a day with expert partner Dr Alison Davis and her team at Vision, unpacking the PaCT tool focusing on writing. Next year we hope to start rolling out the PaCT tool across all our schools.

To all our talented and hardworking teachers and support staff best wishes for a well-earned holiday break!
